Innovation and experimentation:

Sowash presents Vortice technology.

(Video)

(International Patent)

The three pulsating jets, thanks to a microturbine inserted at the end of the head, converging with each other, create **Vortice** effect that can easily remove even the most resistant food residues, for an excellent and gentle cleaning on the gums.

### **Vortice** tip is available in three versions:

### **SPACER:**

Equipped with spacer to optimize the Vortice effect.

Ideal for regular teeth.

### **ORTHODONTIC:**

Particularly suitable for orthodontic appliances (brackets) or in case of irregular dentition.

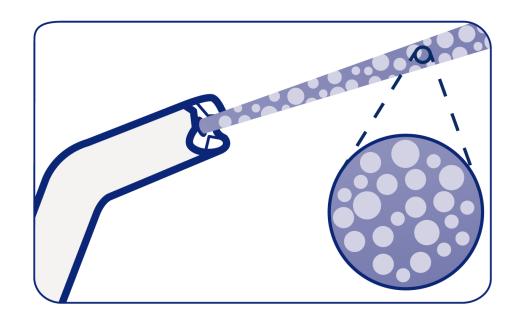

### **BRUSH:**

Double effect. The action of the bristles with the effectiveness of the vortex effect: a cleaning unmatched by any toothbrush. The shape and size of the bristles favour the correct brushing "tooth by tooth".

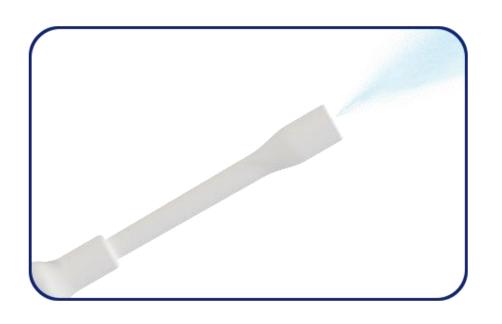

## AIR for incredibly gentle cleaning!

The **Sowash Air** head with its innovative technology (patented) is able to enrich the jet with air microbubbles that make the jet delicate, **ideal for sensitive gums.** The oxygen-enriched cleaning method combats the bacteria responsible for plaque more effectively.

SO Wash

### **ATOM**

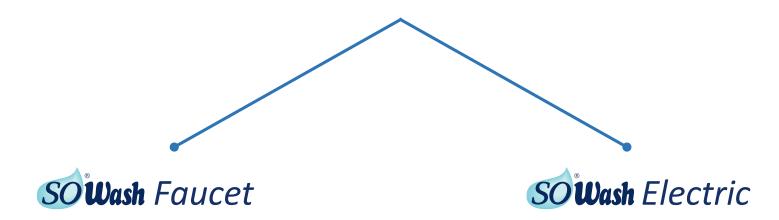

The perfect nebulization!

The spray jet of the **Sowash Atom** head has been specially designed for post-operative treatment.

Thanks to the perfect nebulization, possibly enriched with chlorhexidine or what your doctor suggests, it is ideal for a correct post-operative course.

## How to use sowash tips?

*«Electric» version. With storage tank.* 

## «Faucet» Version

SoWash Faucet: Hi-flow system

## Patented connection

The innovative pressure washer that allows the pressure control of the **Sowash** Faucet device thanks to the **Hi-flow** function.

Sowash Faucet can therefore also be used in places with low water pressure.

<u>Hi-flow system</u> ( Video )

# Main strengths of wash Faucet compared to a conventional hydropulser:

- Tips with patented technologies
  - Vortice
  - Air
- Quality/price ratio
- No encumbrance and tray limits
- No batteries
- No electricity / No motor
- Eco friendly
- Reduced dimensions and weight
- Easy to clean / no limestone
- Can be used on the go
- Tested effectiveness
- Sowash warranty

**SO Wash** Faucet, in addition to the VORTICE - AIR - ATOM heads, has a further wide range of innovative tips, some with international patents.

**HYDROJET:** with a single linear jet, it is ideal for those who want a deeper interdental cleaning.

Particularly suitable for orthodontic appliances, dental implants or orthodontic prostheses.

**HYDROPULSER:** with three pulsating water jets that guarantee both interdental cleaning and gingival hydromassage.

**BALL-SPRAY:** with the exclusive "spray" effect jet, it gently cleans the interdental area, removes plaque and rinses deep down.

Particularly suitable for sensitive gums.

**STRONG:** with its powerful and precise jet, it allows deep interdental cleaning.

To be used at the suggestion of your dentist.

**HYDRO SINUS:** the nasal tip washes the nasal cavities thanks to the gentle cleaning action of the nebulized jet.

is the universal quick adapter that allows you to quickly and easily connect **Sowash** Faucet to the faucet without having to remove the filter.

It is ideal for use with **Sowash** Faucet on the go (in hotels, campsites, etc.) or with non-standard threaded faucets.

#### Multifunction joint for shower:

is connected to the shower hose and, thanks to the swivel switch, allows you to:

- Connect SO Wash Faucet during the shower;
- have a powerful jet of water for a pleasant facial massage or for rinsing the hair;
- use the shower normally.

#### **Organizer:**

mounts to the wall or mirror of the bathroom and allows you to store in a practical and tidy way **SOWash** Faucet and its tips.

#### For standard Faucets

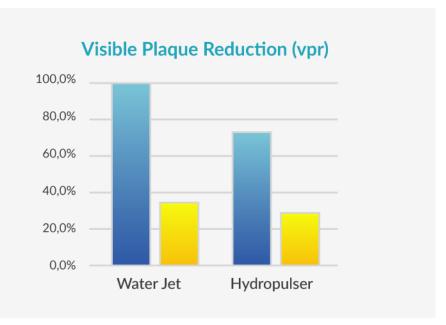

In addition to the one supplied, it is possible to purchase additional ones for use in a second bathroom, office, secondary homes, etc.

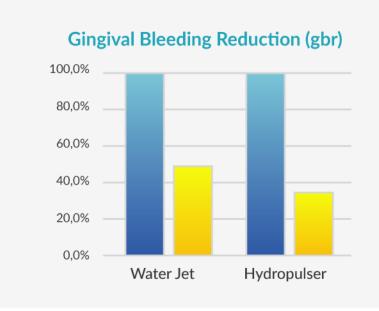

For non-standard Faucets

In-depth clinical studies carried out by **Seconda Università degli Studi di Napoli** demonstrate the effectiveness of the hydrojet.

After only 14 days of use of the **SO Wash** Faucet system it was found:

- -70% of plaque (vpi)
- -60% gum bleeding (bop)

**Sowash** Faucet is available in various packages to suit different consumer needs.
