SURGICAL  
FACE MASKS

DESIGN

EASY

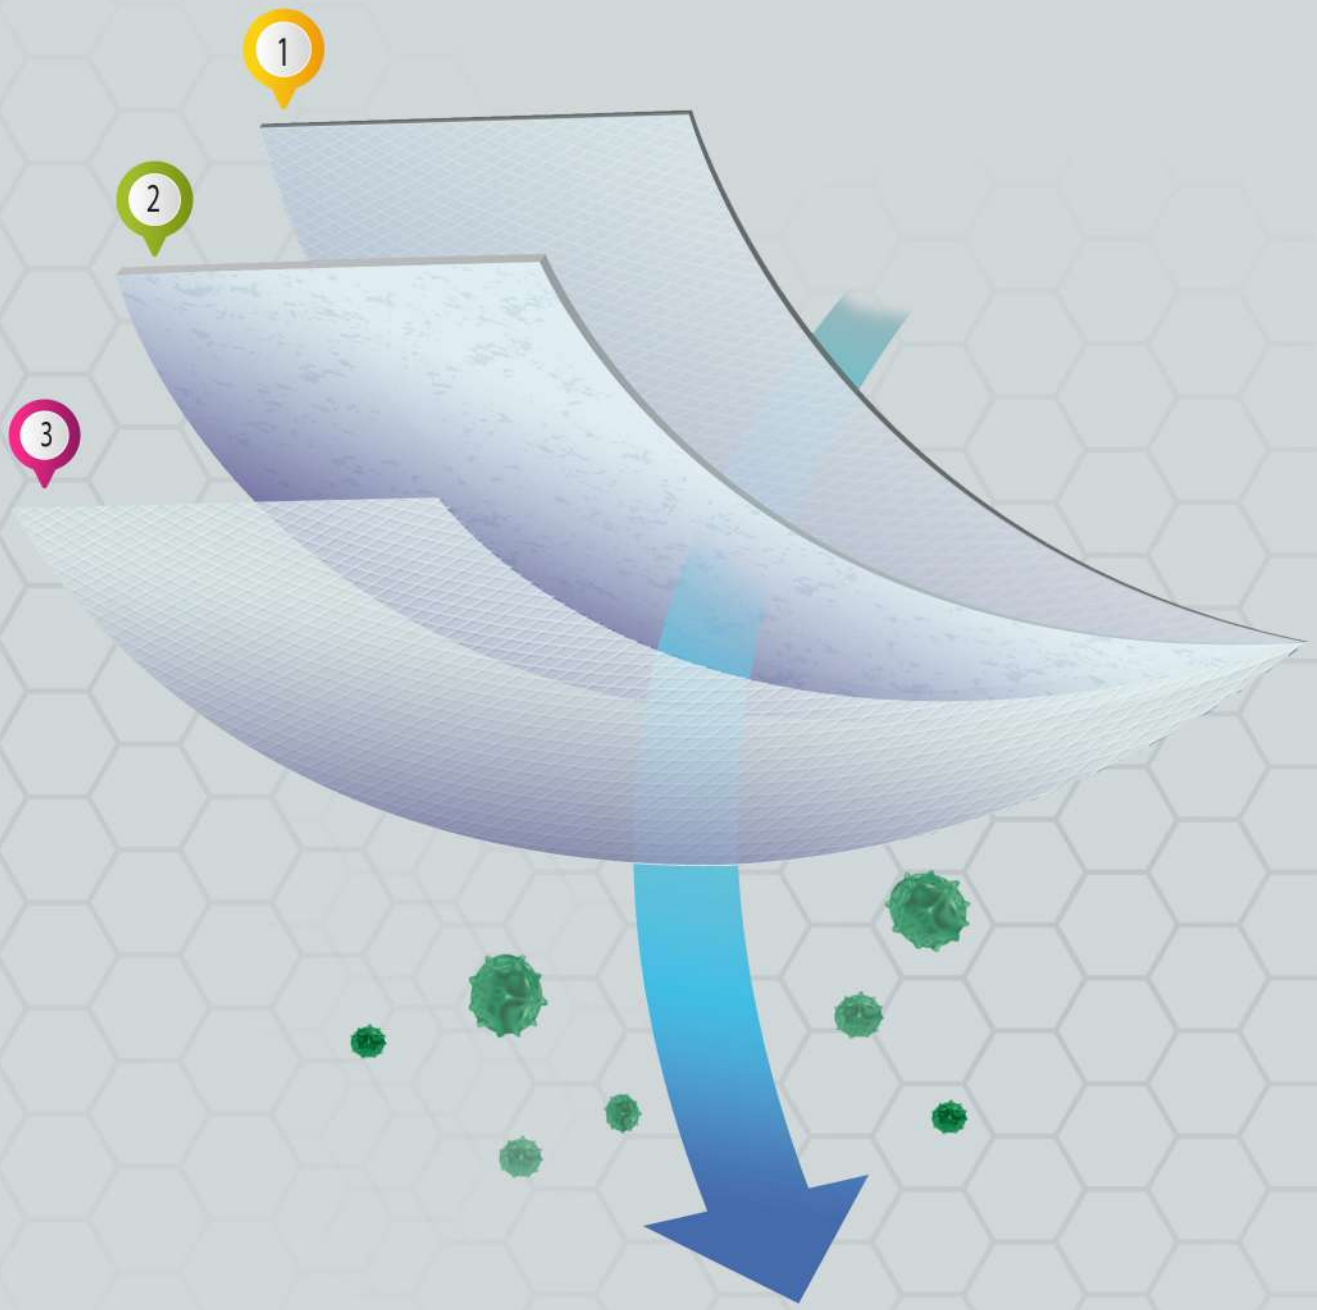

COMFORTABLE

1Flex Technology has developed a new surgical face mask, designed in every single detail. Highly efficient materials and packaging have been used for this Made in Italy product.

High comfort is granted by very soft elastic earloops and adjustable nose bar while the high filtration is given by the use of 3 ply SMS.

Medical Device complying with UNI EN 14683, type IIR, UVC sanitized and made in 98% AHU controlled environment.

# SMS

1

**Absorbs air and moisture from the face**

Spunbond

2

**High density meltblown layer which filters the small particles**

Meltblown

3

**Avoids inhalation of virus and small droplets**

Spunbond

# 3 PLY SMS

## 9 layers for high protection
