HARLOFF
INNOVATING STORAGE FOR CARE

ABOUT US

Harloff has built a reputation for creating a personalized experience that's designed to meet your specific needs. We specialize in innovative designs that are standardized to the medical profession, as well as building custom designed products to meet your unique requirements.

We have an in-house engineering staff that will work with you to design specialized products, as well as outside "in the field" consultants who bring various levels of knowledge and expertise to all of our products. Our products are proudly "American made" by our staff here in Colorado Springs.

Harloff has taken great care in cultivating a national network of local expert representatives that provide a personalized experience and fast accurate service for all of our customers. We value your business and take an attitude of ensuring that all your needs are met in a friendly, professional, and timely manner.

Our diverse production capabilities include working with expansive resources and materials, which include stainless steel, painted steel, aluminum, wood laminate and wood vinyl.

Harloff has been creating innovative carts and storage to meet your needs since 1951. We take pride in our team and look forward to providing you with an enriching customer experience.

Harloff is indeed Innovating Storage for Care, helping you deliver quality care for your patients.

Using This Catalog:

We manufacture the finest quality carts and storage systems to suit every aspect of healthcare storage, security and mobility. Our sales and distribution partners are carefully chosen to work with you on the solutions that specifically meet your needs. Our catalog represents only the base of our product lines and is meant to help you work with us to match the exact solution that fits your needs.

MEDSTORMAX®

Maximum Flexibility

Harloff's Medstormax medical supply storage carts are designed for quick access to medical supplies, featuring the most innovative modular tray system on the market. Our carts are either mobile or stationary, and offer a choice of two different door styles for security and ease of access, providing high density and secure storage for valuable medical supplies.

Features & Benefits:

- Unique design of plastic side panels, combined with pull-out-stoppers, allows modular trays to be extended and viewed at an angle without falling out of the cart
- Offers 30% more tray or basket storage capacity when compared with leading competitor's product, using 2", 4", and 8" modular trays; or 4" and 7" wire baskets
- Further optimize space within trays with adjustable dividers that have a unique locking design, called the "clip-on effect" to withstand high loads
- Increased storage capability means fewer carts need to be purchased, thereby reducing capital purchase costs

OPEN FRAME

Lean Management of Inventory

Open storage solutions provides a clean, easy to see, and a systematic replenishing system that makes managing inventory efficient, accurate, and timely. It improves functionality of an organization and reduces labor and waste.

Features & Benefits:

- Easy to see and determine stocked inventory levels, color coded by category and basket labeling available
- Works very well as a two-bin Kanban system
- Min/Max inventory system
- Standard PAR Level inventory management process
- Our storage equipment achieves the highest density of storage capacity per square foot

WIRE SYSTEMS

Easy Visibility, Durable and Clean

Time-proven wire systems can be configured a variety of ways to accommodate specific inventory needs while helping implement lean management systems by improving functionality and reducing waste. These units are durable and easy to clean.

Features & Benefits:

- Frames are strong, durable, easy to keep clean, and last a long time
- Easy visibility for maintaining and ordering supplies
- All inventory is easy to access, improves processes and outcomes, reduces costs, and increases efficiency
- Shelves can be configured in numerous ways to meet your specific stocking needs
- Shelves are modular and flexible

Economical and Saves Space

Our Mini-line and Value carts are cost-effective and our space-saver design can be used in environments with limited space to safely secure supplies.
