## Surgical Kit Pack

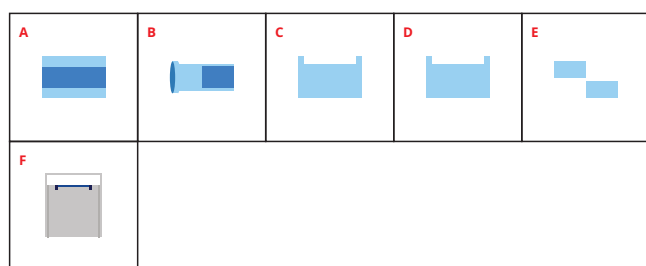

Made of traditional SMS, effectively guaranteeing protection between patient and hospital professional. Besides, it acts as a bacteriological barrier, preventing cross-transfers of infectious agents during surgical procedures. Ready for use, sterile.

### PACKAGE

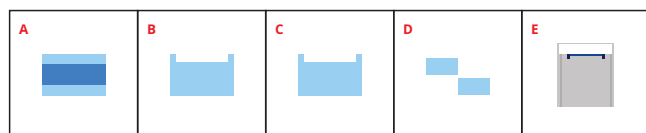

1 unit

### 1 Sterile Surgical Kit Pack F08436

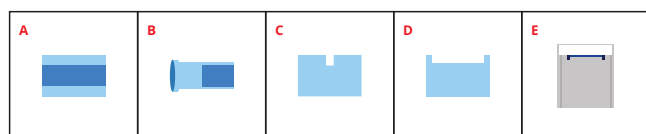

- A** Back table cover
- B** Mayo stand cover
- C** Bottom drape with impervious and absorbent reinforcement
- D** Top drape with impervious and absorbent reinforcement
- E** Side drape with impervious and absorbent reinforcement
- F** Instrument pouch

### 2 Sterile Surgical Kit Pack F08437

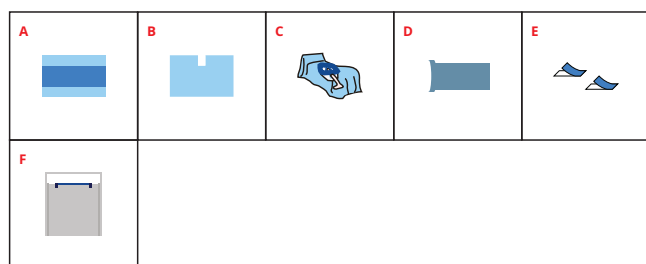

- A** Back table cover
- B** Bottom drape with impervious and absorbent reinforcement
- C** Top drape with impervious and absorbent reinforcement
- D** Side drape with impervious and absorbent reinforcement
- E** Instrument pouch

### 3 Sterile "U" Surgical Kit Pack F08274

- A** Back table cover
- B** Mayo stand cover
- C** "U" Bottom drape with impervious and absorbent reinforcement
- D** Top drape with impervious and absorbent reinforcement
- E** Instrument pouch

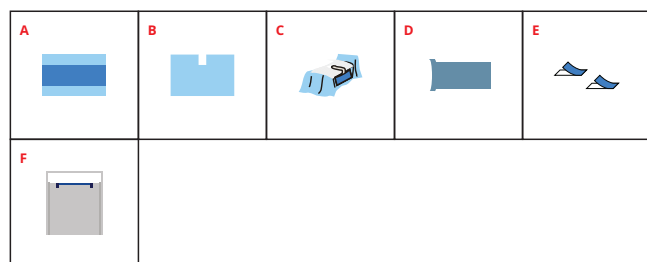

### 4 Sterile Knee/Shoulder/Hip/Orthopedic Surgical Kit Pack (without instrument collection pouch) F08280

- A** Back table cover
- B** "U" impervious drape
- C** Knee/Shoulder drape with elastic aperture without instrument collection pouch
- D** Impervious legging
- E** Adhesive tapes
- F** Instrument pouch

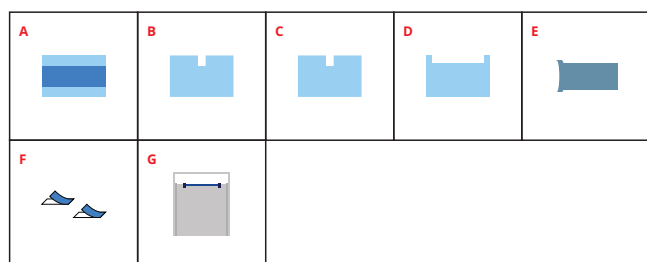

**5 Sterile Knee/Shoulder/Hip/Orthopedic Surgical Kit Pack (Hip) F08283**

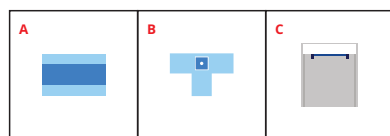

- A** Back table cover
- B** "U" impervious drape
- C** Hip drape with elastic aperture
- D** Impervious legging
- E** Adhesive tapes
- F** Instrument pouch

**6 Sterile Knee/Shoulder/Hip/Orthopedic Surgical Kit Pack F08279**

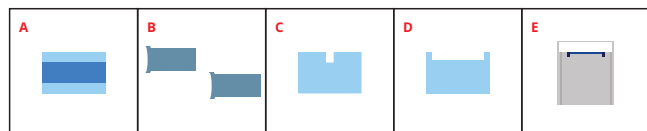

- A** Back Table Cover
- B** "U" impervious drape
- C** "U" bottom drape
- D** Top drape with impervious and absorbent reinforcement
- E** Impervious legging
- F** Adhesive tapes
- G** Instrument pouch

**7 Sterile Extremities Surgical Kit Pack**

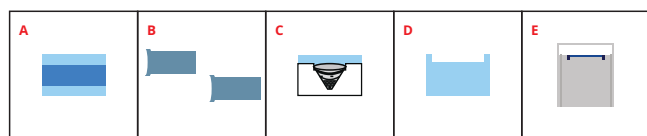

- A** Back Table Cover
- B** Extremities drape with elastic aperture
- C** Instrument pouch

**8 Sterile GUP (Uro/Gynaecology) with "U" bottom drape Surgical Kit Pack F08288**

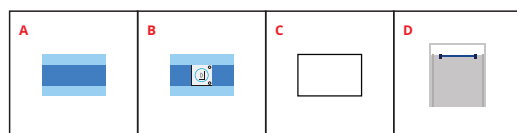

- A** Back Table Cover
- B** Legging with adhesive tape
- C** "U" bottom drape
- D** Top drape with impervious and absorbent reinforcement
- E** Instrument pouch

**9 Sterile GUP (Uro/Gynaecology) Surgical Kit Pack F08315**

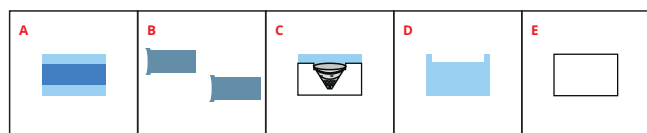

- A** Back Table Cover
- B** Legging with adhesive tape
- C** Underbuttocks drape
- D** Top drape with impervious and absorbent reinforcement
- E** Instrument pouch

**10 Sterile Caesarean Surgical Kit F08483**

- A** Back Table Cover
- B** Caesarean drape with collection pouch
- C** Baby towel
- D** Instrument pouch

**11 Sterile Normal Birth Surgical Kit Pack F08285**

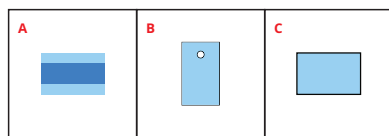

- A** Back Table Cover
- B** Legging with adhesive tape
- C** Bottom drape for normal birth with collection pouch
- D** Top drape with impervious and absorbent reinforcement
- E** Baby towel

Fotos Ilustrativas

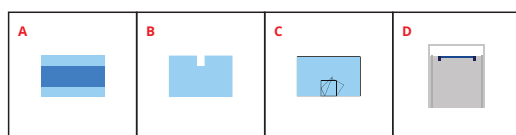

**12 Sterile ENT Surgical Kit Pack F08289**

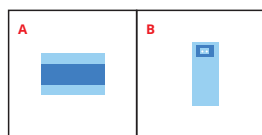

- A** Back Table Cover
- B** ENT drape with adhesive and aperture
- C** Surgical drape

**13 Sterile Head and Neck Surgical Kit Pack F08270**

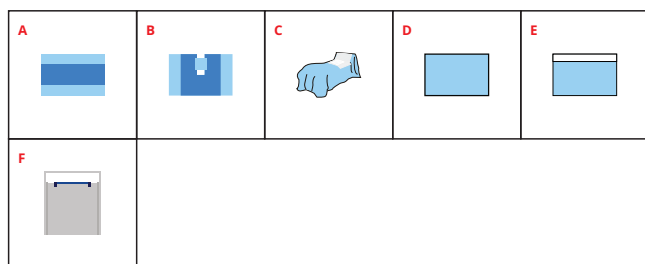

- A** Back Table Cover
- B** "U" Bottom drape with impervious and absorbent reinforcement
- C** Turban drape
- D** Instrument pouch

**14 Sterile Angiography Surgical Kit Pack F08291**

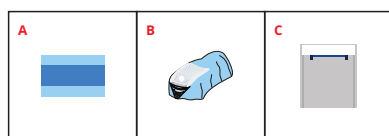

- A** Back Table Cover
- B** Angiography drape with double aperture and reinforcement absorbent and impervious

**15 Sterile Cardiovascular Surgical Kit Pack F08453**

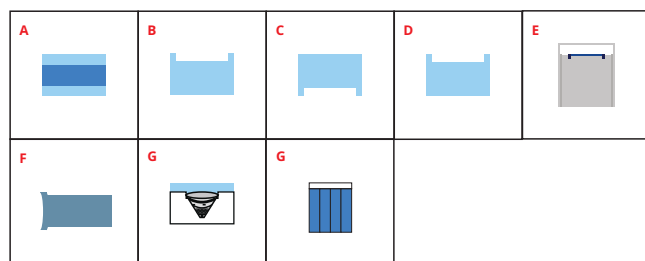

- A** Back Table Cover
- B** "U" Bottom drape
- C** Cardiovascular drape
- D** Surgical drape
- E** Surgical drape with adhesive (for feet)
- F** Instrument pouch

**16 Sterile Cranio Surgical Kit Pack F08290**

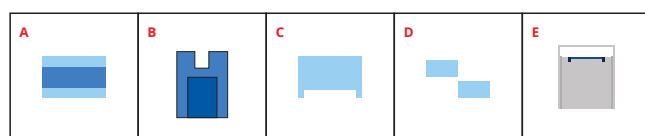

- A** Back Table Cover
- B** Aperture drape with incise film and collection pouch
- C** Instrument pouch

**17 Sterile GUP (Uro/Gynaecology) Laparoscopy Surgical Kit Pack F08459**

- A** Back table cover
- B** Bottom drape with impervious and absorbent reinforcement
- C** Top drape with impervious and absorbent reinforcement
- D** Side drape with impervious and absorbent reinforcement
- E** Instrument pouch
- F** Leggings
- G** Underbuttocks drape
- H** Instrument pouch

**18 Sterile Universal Surgical Kit Pack F08449**

- A** Back table cover
- B** Bottom drape with impervious and absorbent reinforcement
- C** Top drape with impervious and absorbent reinforcement
- D** Side drape with impervious and absorbent reinforcement
- E** Instrument pouch

## Dental Surgical Kit Pack

### 1 Basic Dental Surgical Kit Pack (F08131)

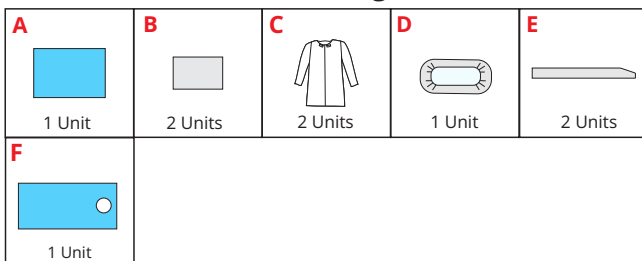

- A** Isolation gown
- B** Absorbent towel
- C** Back table cover
- D** Aperture drape (Patient Drape)

### 2 Implantology Dental Surgical Kit Pack (F08095)

- A** Back table cover
- B** Absorbent towel
- C** Isolation gown
- D** Reflector protector
- E** Sucker protector
- F** Chair protector
- G** Surgical drape
- H** Aperture drape (Patient Drape)

### 3 Periodontics Dental Surgical Kit Pack (F08096)

- A** Back table cover
- B** Absorbent towel
- C** Isolation gown
- D** Reflector protector
- E** Sucker protector
- F** Aperture drape (Patient Drape)

Polar Fix Disposable Dental Surgical Kit Packs are high-tech products providing quality and safety for patient and dental professional. Its surgical drapes are made of impervious and absorbent material which helps to mitigate the risks of crossed infections.

## Sterile Surgical Drape

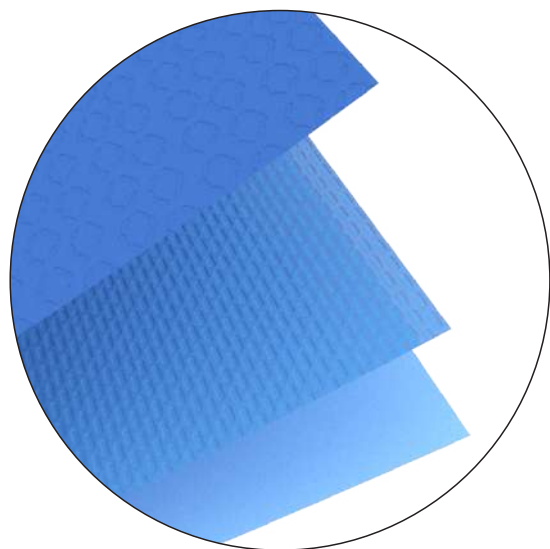

Made of laminated absorbent spun with PE film. It can be used to cover the back table or as a patient drape.

With or without apperture.  
With or without medical tape.

## Sterile Surgical Kit Pack Sorbdrape

The Sterile Surgical Kit Pack SORBDRAPE consists of surgical drapes for patient and for back table which provides protection against cross-transfers of infectious agents during the surgical procedures.

The main advantage of the Sterile Surgical Kit Pack SORBDRAPE is its fabric technology. The surgical drapes are made of laminated fabric, which provides maximum level of protection. The technology SORBDRAPE is supported by two pillars:

### **Imperviousness**

Imperviousness in all surgical drape extension which guarantees the maximum protection for patient and hospital professional.

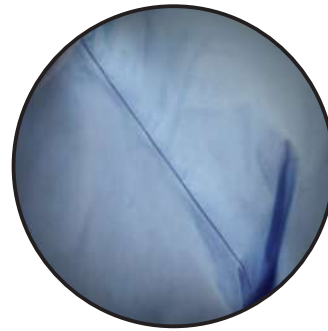

### **Absorption**

The surgical drapes feature absorption property in all its extension. The trilaminate reinforcement is indicated for high fluid surgeries.

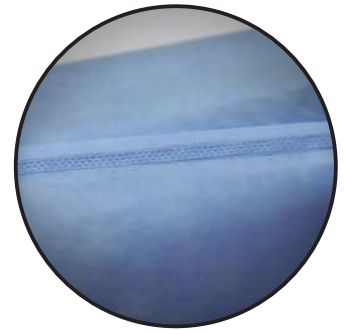

The high absorption capacity helps to keep the surgery center clean what results in time reduction to sterilize the environment. This means safety and cost reduction.

## Sterile Trilaminare Surgical Gown BVB

**Raglan Sleeves**

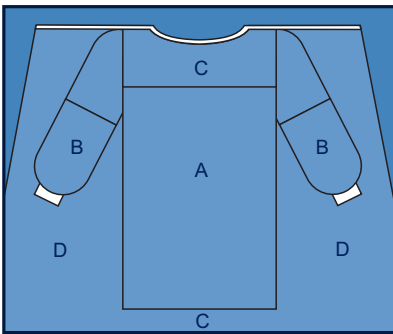

**Ultrasonic Seam**

The Sterile Trilaminare Surgical Gown BVB is made of smooth and breathable fabric which provides the user with comfort during long surgical procedures. The gown has maximum protection level according to the American Organisation Association for the Advancement of Medical Instrumentation (AAMI). The level 4 gown is indicated for protection against virus and bacteria.

SIZE	PACKAGE
G	1 unit
EG	

The AAMI published the guidelines for the liquid barrier performance of protective apparel and drapes in the document AAMI Pb70.

For this purpose, one classification was established, focusing on the protection of the surgical gown critical areas, where there are higher chances of contact with infectious agents.

The tests conducted in the American lab Nelson Laboratories showed that the Sterile Trilaminare Surgical Gown BVB demonstrates the ability to resist liquid and viral penetration according to the standard ASTM F1671. It means that the surgical gown meets the most demanding quality standards in US on its whole surface.

# Hospital Bathing Wipes Without Antiseptic Polar Fix

**Intended Use:** the Hospital Bathing Wipes without Antiseptic Polar Fix were developed for bedridden patients. The wipes are odorless and perform the function of hygiene, hydration and skin protection.

**Composition:** Aqua, Disodium Cocoamphodiacetate, Biosacharide Gum-1, Phenoxyethanol and Caprylyl Glycol, Aloe Barbadosis Leaf Extract, Alpha-Glucam Oligosaccharide, Tocopheryl Acetate, Allantoin, Lactic Acid, Disodium EDTA, Mineral oil, Isopropyl Palmitate / Trilaureth4 Phosphate, Rapeseed oil Sorbitol Esters, Ammonium Acryloyldimethyltaurete / VP Copolymer, Citric Acid.

**Precautions:** The product is not indicated for people who are hypersensitive or allergic to the components of the Hospital Bathing Wipes without Antiseptic Polar Fix

**Benefits offered:**

- It does not contain alcohol;
- Hypoallergenic product;
- Dermatologically tested;
- Formula with more than 90% water.

**Shelf life:** 3 Years

For More Information

## Non Woven - Baby Towel

The Baby Towel consists of viscose and polyester fabric with high absorbent properties. It is indicated for wrapping and new born babies. Sterile product.

Size	Package
1 m x 1 m	1 unit

## Disposable Towel

The Disposable Towel has many applications, such as aseptic and cleaning procedures in hospitals. Its high absorption property and smooth texture make it perfect for cleaning surfaces.

Format	Package
Pack	100 units

## Elastic Crepe Bandages

The Elastic Crepe Bandage has elastic and high resistance properties. It is indicated for orthopedic applications or prevention against injuries caused by sport activities for example. It could be used as compression therapy.

Width	Length	Package	Type
10 cm, 15 cm e 20 cm	1,8 m	1 unit	Sterile
4 cm, 6 cm, 8 cm, 10 cm, 12 cm, 15 cm, 20 cm, 25 cm e 30 cm			Non Sterile

## Elastic Bandage

The Elastic Bandage consists of polyamide, polyester and cotton fabric. It is indicated for compression therapy applications, injuries prevention in sport activities. Non sterile product.

Width	Length	Package
5 cm, 8 cm, 10 cm, 12 cm, 15 cm, 20 cm, 25 cm e 30 cm	2,20 m	1 unit

## Plaster Bandage

This Plaster Bandage is made of 100% cotton fabric impregnated with alpha orthopaedic plaster. It has smooth and creamy texture and sinuous edge cut which prevents fraying.

Quick drying and high resistance. It is indicated for bone fracture immobilization and muscle injuries.

Width	Length	Package
6 cm e 8 cm	2 m	1 unit
10 cm, 12 cm e 15 cm	3 m	
20 cm	4 m	

## Lap Sponge

The Lap Sponge consists of 100% cotton fabric, high absorbent. It has x-ray detectable yarn. Smooth texture indicated for surgical procedures.

Sizes	Package	Type
10 cm x 9 cm e 25 cm x 28 cm	5 units	Sterile
23 cm x 25 cm e 45 cm x 50 cm	50 units	Non Sterile

## Cotton Gauze

The sterile gauze is made of 100% cotton fabric with high absorption power. It is available with or without x-ray detectable yarn, sterile or non-sterile.

Free from stains and impurities, free from starch and optical bleach. It is indicated for surgical procedures, secretion absorption and wound care treatment.

It is available in 9,11 or 13 yarns/cm<sup>2</sup>.

Sizes	Package	Type
7,5 cm x 7,5 cm e 10 cm x 10 cm	5, 10, 20 e 30 unidades	Sterile
	500 units	Non Sterile

## Sterile Surgical Cotton Gauze Polar Bec

The Sterile Surgical Cotton Gauze Polar Bec consists of an absorbent cotton free of impurities and wrapped in cotton gauze fabric. This product is indicated for secretion absorption in surgical procedures.

Sizes	Package
10 cm x 15 cm	1 unit
10 cm x 50 cm	
15 cm x 30 cm	
15 cm x 60 cm	

## Rayon Bandage

The Rayon Bandage is made of synthetic fibers from cellulose. This bandage is non-adherent and it is indicated for burnings or any wound treatment which requires high absorption and low adherence. Free of impurities and loose yarns.

Width	Length	Package	Type
7,5 cm	20 cm, 40 cm e	1 unit	Sterile
	5 m		Non Sterile
	5 m		

## Non Woven Gauze

The Non Woven Gauze is made of viscose and polyester fiber with high absorbent properties with or without x-ray detectable yarn. It is indicated for surgical procedures and wound care treatments.

Sizes	Package	Type
7,5 cm x 7,5 cm e	5, 10 e 20 units	Sterile
10 cm x 10 cm	500 units	Non Sterile

## Roll Sterilization Pouch

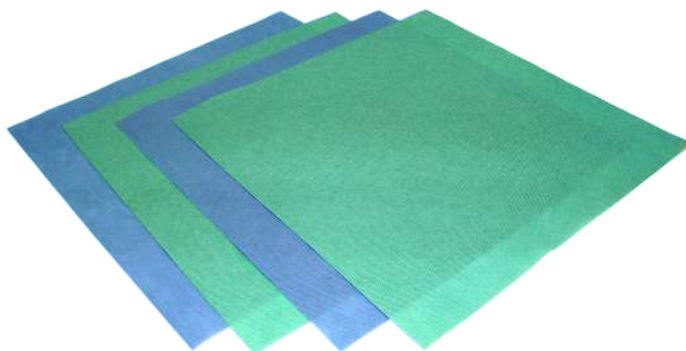

The roll sterilization pouch is made of medical paper which provides mechanical resistance, microbiological barrier and porosity control to keep the product sterilized.

The laminated film supports the tensions caused by the product packing and manipulation. Its sealing provides protection and enables aseptic opening. The sterilization printed indicators are sensitive to EO and steam sterilization processes.

Shape	Package
Coil	1 unit

## Sterilization Wraps

The Sterilization Wraps are made of spunbond non woven SSMMS (spunbond, spunbond, meltblown, meltblown, spunbond).

This product is indicated to wrap and protect surgical instruments and products that will be sterilized by steam, EO or plasma. They are available in blue or green color.

Non sterile product

Sizes	Weight	Color	Package
30 cm x 30 cm, 40 cm x 40 cm, 50 cm x 50 cm, 60 cm x 60 cm, 75 cm x 75 cm, 90 cm x 90 cm, 100 cm x 100 cm, 120 cm x 120 cm e 150 cm x 150 cm	Light 40 g/m <sup>2</sup>	Green	50 units
	Heavy 50 g/m <sup>2</sup>	Blue	
	Extra Heavy 60 g/m <sup>2</sup>		

## Crepe Paper

The Crepe Paper consists of 100% cellulose.

This product is indicated to wrap and protect surgical instruments and products that will be sterilized by steam, EO or gamma. They are available in white or green color.

Sizes	Weight	Package
20 cm x 20 cm, 30 cm x 30 cm, 40 cm x 40 cm, 50 cm x 50 cm, 60 cm x 60 cm, 75 cm x 75 cm, 90 cm x 90 cm, 100 cm x 100 cm e 120 cm x 120 cm	60 g/m <sup>2</sup>	500 units
