AD-RESYL®

1 INGREDIENT for 4 ACTIONS

- 1 Restores the barrier function
- 2 Rebalances the skin microbiota, diminishing adhesion of *S. aureus*
- 3 Supports hydration
- 4 Attenuates Th2 inflammatory response

- With AD-RESYL®, a **special multi-functional active ingredient** that rebalances the microbiota and attenuates skin reactivity, thereby helping to prevent dryness, itch and redness.
- Lightweight emulsion (O/W) ideal as *basic therapy*, recommended for use through the **warmer season of the year**
- Restores the barrier function and promotes skin hydration
- Ideal for infants, children and adults

AD-RESYL®, Glycerin, 11% Lipidic phase

400 ml/13.52 fl. oz. bottle with dispenser

TRIDERM A.D.
Emollient balm

- With AD-RESYL®, a **special multi-functional active ingredient** that rebalances the microbiota and attenuates skin reactivity, thereby helping to prevent dryness, itch and redness.
- Rich cream (W/O emulsion) ideal as *basic therapy*, recommended for use through the **colder season of the year**
- Restores the barrier function and promotes skin hydration
- Ideal for infants, children and adults

AD-RESYL®, Glycerin, 37.5% Lipidic phase

450 ml/15.21 fl. oz. pot

TRIDERM A.D. 50+
